Passions and Constraint, by Stephen Holmes | Mises Institute

By placing it into its original historical context, *Passions and Constraints* presents an interconnected argument meant to fundamentally change the way we conceive of liberalism. According to Holmes, three elements of classical liberal theory are commonly used to attack contemporary liberalism as antagonistic to genuine democracy and the welfare state: constitutional constraints on majority rule, the identification of individual freedom with an absence of government involvement, and a strong ...

As Holmes recognises, however (see
Passions and Constraint at 284 n.99), it
is questionable whether this remark,
when read in context, really does
constitute an affirmation of universal self-
interest. See further Werhane, supra
