Pathophysiology Of Heart

Heart failure can result from many forms

of heart disease, including heart defects, cardiovascular disease, valvular heart disease, heart infections or

cardiomyopathy. Heart attack. A blood

clot blocking the blood flow through a blood vessel that feeds the heart causes a heart attack, possibly damaging or destroying a part of the heart muscle.

Heart Disease: Types, Causes, and Symptoms

The coronary arteries supply blood, oxygen and nutrients to your heart. A buildup of plaque can narrow these arteries, decreasing blood flow to your heart. Eventually, the reduced blood flow may cause chest pain (angina), shortness of breath, or other coronary
